

RS-2/1-D15

Rubber-expansion joint - Type RS-2

Lateral-expansion joint DN 25 - DN 300

Structure type R-2

Lateral-expansion joint, consisting of a rubber bellows with rotable flanges and tie rods (external restraints) to absorb reaction force from internal pressure

Applications

- or reducing thermal and mechanical tension in pipes and their system components, e.g.
 - pumps
 - compressors
 - motors
- for muffling vibrations and noise
 - at appliances
 - in cooling water and lub oil pipes
- for compensating lateral movement
- to compensate for installation inaccuracies
- to meet fire protection regulations
- shipbuilding industry
- in heating plants

Rubber bellows PN 16

- ☐ Flat-convoluted molded bellows in various rubber grades
- ☐ Steel wire cord reinforcement
- ☐ Wire-reinforced self-sealing rubber rim
- ☐ Electrical impendance < 100 Ohm (DIN IEC 93, VDE 0303-30)

Rubber grade*	Color code	Possible uses
EPDM	orange/blue	Hot water, acids, lyes
NBR	red/blue	Oil

^{*}Check or inquire about the resistance of the rubber grade to temperature and medium.

Technical design					
Max. perm. operating pressure 16 bar*					
Max. perm. temperature	+130 °C				
Bursting pressure	≥ 50 bar				
Vacuum operation	DN 25-50 without vacuum supporting ring,				
	DN 65-300 with vacuum supporting ring				

Max. operating pressure to be set 30 % lower for shock loads.

Flanges

Version

- ☐ Flanges with stabilizing collar and ears to carry the tie rods
- ☐ Flange drilling for through bolts, DN 25 with Drill holes
- ☐ Special machined groove for rubber rim

Dimensions

Standard: DN 25 - DN 150 (PN 16)

DN 200 - DN 300 (PN 10) DN 25 - DN 300 (PN 6)

according to EN 1092 DIN EN, ANSI, BS etc. Connection dimensions see technical

annex

Materials

Standard: 1.0038 (S235JR) Others: 1.4541, 1.4571 etc.

Corrosion protection

Standard: electrogalvanized

Others: hot-dip galvanized, special

varnish, special coating,

etc.

Tie rod restraints

- ☐ DN 25 DN 150 Tie rods carried on silencing rubber sockets
- DN 200 DN 300 Tie rods carried on spherical washers and conical seats

Materials

Standard: tie rods 8.8 Others: stainless steel Corrosion protection Standard: electrogalvanized hot-dip galvanized Others:

Accessories

- □ Vacuum supporting ring
- ☐ Internal guide sleeve
- ☐ Flame-proof protective cover
- ☐ Protective tube

Certificates

- ☐ CE (PED 97/23/EC)
- □ Bureau Veritas
- ☐ Germanischer Lloyd
- ☐ Lloyd's Register of Shipping TÜV/DIN 4809 (DN 25-200)
- Det Norske Veritas
- ☐ MED

^{*}Please consider a decrease of pressure due to temperature (see technical annex).

200	15	0.4	22.0
250	15	0.5	30.0
300	15	0.6	37.0

Note

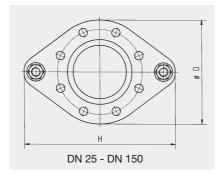

Please comply with the general technical instructions regarding reaction force, moving force, fixed point load, installation instructions etc.

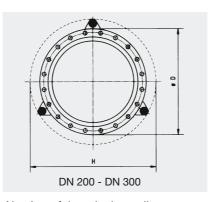

Subject to technical alterations and deviations resulting from the manufacturing process.

Chemicals used for water treatment (particularly in heating systems and coolant systems) can corrode the materials of the rubber expansion joint.

According to VDI Directive 2035, and VGB R 455, the manufacturer of the chemicals must state the data indicating that the materials used in the expansion joint, especially for the rubber bellows, will not be damaged by the chemicals.
