

VS-1/1-G14

# **Rubber compensator - Type VS-1**

Universal compensator DN 40 - DN 150

## Structure type VS-1

Universal compensator, consisting of a rubber bellows and rotating flanges

### Rubber bellows PN 16

- $\hfill \square$  Highly elastic molded bellows in various rubber grades
- ☐ Steel wire cord reinforcement
- ☐ Wire-reinforced self-sealing rubber rim
- ☐ Electrical impedance < 100 Ohm (DIN IEC 93, VDE 0303-30)

| Rubber grade* | Colour code | Possible uses          |
|---------------|-------------|------------------------|
| EPDM          | orange/blue | Hot water, acids, lyes |
| NBR           | red/blue    | Oil                    |

<sup>\*</sup>Check or inquire about the resistance of the rubber grade to temperature and medium.

| Property             | Pressure   | Temperature                      |  |  |  |
|----------------------|--|----------------------------------|--|--|--|
| Max. perm. operating | 16 bar   | up to +60 °C                     |  |  |  |
| pressure             | 10 bar   | up to +100 °C                    |  |  |  |
| ·                    | 6 bar  | up to +110 °C                    |  |  |  |
|                      |  | up to +130 °C for brief periods* |  |  |  |
| Bursting pressure    | ≥ 50 bar   | -                                |  |  |  |
| Vacuum               | ≥ 0.05 bar abs. with vacuum supporting ring (from DN 65) |                                  |  |  |  |

Max. operating pressure to be set 30 % lower for shock loads.

### **Flanges**

### Version

- ☐ Rotating flanges with stabilizing
- $\hfill \square$  Flange drilling for through bolts
- $\hfill \square$  Special turned groove for rubber rim

# **Dimensions**

Standard: DN 40 - DN 150 according to VG 85356

### **Materials**

Standard: 1.0038 (RSt 37-2) Others: 1.4541, 1.4571 etc.

### **Corrosion protection**

Standard: electrogalvanized
Others: hot-dip galvanized

hot-dip galvanized, special varnish, special coating,

etc.

### **Applications**

- for reducing thermal and mechanical tension in pipes and their system components, e.g.
  - pumps
  - **■** compressors
  - **■** motors
- for muffling vibration and noise
  - at appliances
  - in cooling water and lub oil pipes
- for compensating axial, lateral and angular movement
- to compensate for installation inaccuracies
- to meet fire protection regulations
- shipbuilding industry
- in heating plants

### Accessories

- ☐ Vacuum supporting ring
- ☐ Internal guide sleeve

### Certificates

☐ CE (DGR 97/23/EC)

STENFLEX type VS-1 used in cooling water system of ship's engine

<sup>\*&</sup>gt; +110 °C the manufacturer's approval must be obtained for the corresponding operating conditions.
