

ABOUT MAGMA

MAGMA TECHNOLOGIES established in 2003 manufactures electric heating products. With over several years of experience, commitment and exclusive cutting edge technology, MAGMA offers most versatile quality products and services in INDIA and abroad as well. Magma aims to achieve control over all electric heating problems or projects that proves difficult to the buyer in all aspects whether technical or commercial area.

Magma designs and manufactures commercial and industrial electric heating and control systems that set the industry for excellence. Our main focus is to build custom made electric heating elements for customers from domestic specialists to industrial manufacturers who need a new heating solution or who can't find a replacement for their machine / appliance. We deliver satisfaction by giving total electric heating solution package from start to finish in any project.

Magma is fully equipped for all challenges whether internally or externally managed situation. Our quality checks are done in house. We can undergo any certification (PRODUCT OR COMPANY) process of different - different countries if the deal so demands.

OUR VISION:

Our business is founded in a history of fair dealings, and listening to our customers and employees. We believe our future growth is assured by honouring that tradition of excellence and by on-going adherence to our core values.

OUR MISSION:

We aim to delight our customers by partnering with them and responding to their needs. We know our success is only possible through increasing our customers' productivity and profitability, thus ensuring their success as well. We are committed to serving our customers through innovation, value creation, and the highest quality system solutions.

TUBULAR HEATERS- READY TO FORM

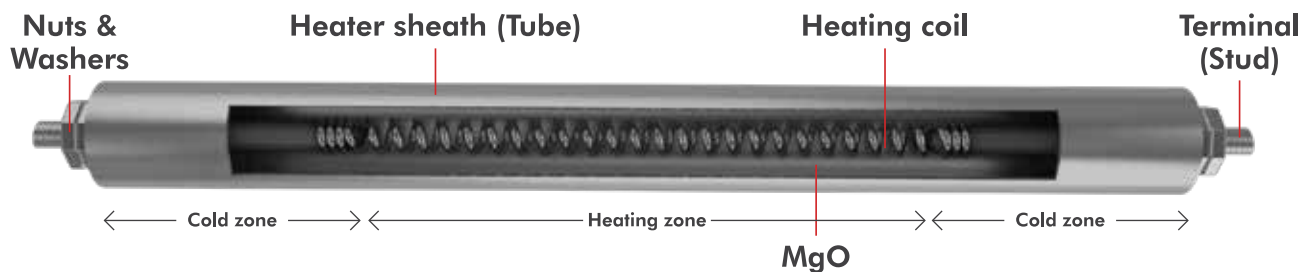

Tubular heaters - ready to form exclusively for heater OEM's, traders, wholesalers, stockist, self-designer who intend to off load their production and make it in their name. We entertain companies who want their regular sizes in straight form and they just module in form shape at their end.

This type of heaters is also for importers who buy in bulk for their respective customers. The main component is made by MAGMA and buyer just modulates mechanically as per desired application.

All heaters are made with annealing in different diameters (Enquire for availabilities). Available wattages in the range of 50 Watt to 18 Kilo Watts designed up to 600Volts (LVD). Terminations, Sealing's and Accessories can also be provided as per requirements. Tubes- ERW and Seamless available

All types of certifications can be done on project based and contracts, even global recognized TPI (Third Party Inspection) we entertain.

We also accept contracts on NDA basis which ensures OEMs about their secrecy of purchase. We can manufacture in their name and as per their norms on agreed contractual base.

READY TO BEND STRAIGHT HEATERS
